

31 May 2019

Dear Aly,

Planned traffic management on the C182 between Combwich and Hinkley Point

We are writing to inform you that we have upcoming planned traffic management on the C182.

Following our letter of 22 May 2019, and having obtained the necessary approval from Sedgemoor District Council, in order to move to the next phase of the tunnelling works, we require a delivery of Tunnel Boring Machine components to the Hinkley Point C site. As previously advised, components will arrive at Combwich Wharf on the high tide on Monday 3rd June by barge.

To facilitate this delivery, dredging works will be carried out over the next few days. The boat is restricted by the high tide times, with the works expected to take place earlier in the mornings between 0600 to 1030 and in the evenings between 1745 to 2200. Our environment team will monitor noise levels, and ensure we remain compliant.

The items from the delivery will then be transported to the Hinkley Point C site, using the private access road out of Combwich Wharf and onto the C182. Although intermittent use of the C182 will be permitted, the deliveries will cause disruption to this route and the adjoining lanes between the hours of 09:00 and 13:30 on Wednesday 5th June.

In preparation for the movement of these large deliveries, there will be adjustments to signage and other street furniture along the route. Much of these works have already been completed, during the evenings to minimise disruption, however you may see further works taking place over the next few days and on the day of the delivery.

We apologise for any inconvenience these works will cause and thank you for your patience during this time.

If you wish to find out further details, please visit www.edfenergy.com/hpc or call us on 0333 009 7070.

Kind regards,

Immy Silby
Community Relations Executive
Hinkley Point C
