

25 October 2019

Dear Aly,

Planned traffic management on the C182 between Comwich and Hinkley Point

Further to our letter dated 14th October, we are writing with an update regarding the delivery due into Comwich Wharf.

The delivery is due into Comwich Wharf on the high tide on Friday 25th October.

At the wharf, the barge will be unloaded during suitable high tide times. The team will keep disruption to a minimum, however there will be some noise during unloading. Noise monitoring will be in place throughout the duration of the works. Weather permitting, the barge will depart on the first suitable high tide after unloading is complete

The items from the delivery will then be transported to the Hinkley Point C site, using the private access road out of Comwich Wharf and onto the C182. Although intermittent use of the C182 will be permitted, the deliveries will cause disruption to this route and the adjoining lanes between the hours of 0900 and 1500 on Monday 28th October.

We apologise for any inconvenience these works will cause and thank you for your patience during this time.

For further information on the project please visit www.edfenergy.com/hpc or call us on 0333 009 7070.

Kind regards,

Immy Silby
Community Relations Executive
Hinkley Point C
